

## Till Death Us Do Part

Lord Of The Lost

I walk this empty road  
I'm leaving tomorrow and live for today  
I am about to implode  
When the void will take me away

Till death us do part  
I wanna keep the pain alive  
Till death us do part  
When I'm dying in you're arms, in you're arms

When I don't feel your hand  
There's still two pairs of footprints in the sand  
I never know, no I never know,  
What you ever know, what you never say  
No I never know what you never say  
It will take me away

Till death us do part  
I wanna keep the pain alive  
Till death us do part  
When I'm dying in you're arms, in you're arms

Till death us do part  
I wanna keep the pain alive  
Till death us do part  
When you're dying in my arms, in my arms

I never know, no I never know,  
What you ever know, what you never say  
No I never know what you never say  
It will take me away

Till death us do part  
I wanna keep the pain alive  
Till death us do part  
When I'm dying in you're arms, in you're arms

Till death us do part  
When you're dying in my arms  
Till death us do part  
I wanna keep the pain alive  
Till death us do part

When we're dying in our arms, in our arms
