Good to Be Bad

Pigtails The cutest smiles But it's all delusion

Kneesocks The sweetest eyes It's just a grand illusion

When they're bad They just get better Like saints full of sin And again the constrictor queens Will shed their skin

All the naughty lordi girls They know it's good to be bad They're gonna claw before they purr They know it's good Good to be bad

She-Lurks In a girl disguise You'll fall into confusion

Now they might Play it nice But you're heading for an execution

When they're bad They just get better Like saints full of sin And again the constrictor queens Will shed their skin

All the naughty lordi girls They know it's good to be bad They're gonna claw before they purr They know it's good Good to be bad

Yeah, yeah, yeah!

All the naughty lordi girls They know it's good They know it's good

All the naughty lordi girls They know it's good to be bad They're gonna claw before they purr They know it's good Good to be bad

All the naughty lordi girls They know it's good to be bad They're gonna claw before they purr They know it's good Good to be bad
