

# Happy New Fear

Lordi

As a kid in kindergarten they made you cry  
Told you mommy won't come back and you believed the lie  
Classmates in second grade all abandoned you  
They laughed as you got your ass kicked right after school

Of all the loser freaks  
You were the most undatable  
The grades you got in school  
Were laughable  
You're afraid of getting clawed  
When you pet your cat  
Your dog wants a treat  
You think it wants to attack

Another year has gone and everything's worse no  
The way your fears come true is like a smackdown  
And we got more where that come from

Now have a happy happy new fear  
Happy new fear  
Happy happy new fear  
Happy new fear  
And the more you feed the fear the more it consumes  
Happy happy new fear  
And the fear is killing you

You tell yourself that  
Everything's gonna be all right  
We'll take it up a notch and  
Boom! You family dies  
And when you see my face  
You believe in the supernatural  
You'll learn that demons  
Are not fairytales, they're factual

Another year has gone and everything's worse no  
The way your fears come true is like a smackdown  
And we got more where that come from

Wishing a happy happy new fear  
Happy new fear  
Happy happy new fear  
Happy new fear  
And the more you feed the fear the more it consumes  
Happy happy new fear  
And the fear is killing you

Happy happy new fear  
Happy new fear  
Happy happy new fear  
Happy new fear  
And the more you feed the fear the more it consumes  
Happy happy new fear  
And the fear is killing you [2x]
