Hey you -- come on I show you something There is what it takes for you Mmh, you better follow me

Go -- gonna ease your pain Ooh, you will remember me That's it what they used to say Seducing everybody for the money

Slow down -- back off
Tell him you don't pay the price

He is a midnight mover

Coming in the night -- going with the light

He is a midnight mover

He can't go on in the sunlight

You better use your brain
Ooh, you are forever free
That's it, there's no place to stay
For someone who is losing, it's not funny

Slow down -- back off
Tell him you don't pay the price

He is a midnight mover

Coming in the night -- going with the light

He is a midnight mover

Midnight mover -- midnight mover

He is a midnight mover

Coming in the night -- going with the light

He is a midnight mover

He can't go on in the sunlight

He is a midnight mover

Coming in the night -- going with the light

He is a midnight mover

He can't go on in the sunlight
