

# They Only Come Out At Night

Lordi

You know you saw them but no-one ever listens  
They'll be long gone by the time the sun has risen

You feel 'em lurking, hear 'em howling in the shadows  
Wreaking havoc on your perfect world

They are the tricking trolls  
They got the bell that tolls  
Flash at the edge of your sight

They only come out at night  
They only come out at night  
They only come out at night  
They only come out at night

The shadows breathe with a venom like no other  
A silent evil where there shouldn't be another, no no

I feel 'em lurking, hear 'em howling in the shadows  
Wreaking havoc on your perfect world

They are the tricking trolls  
They got the bell that tolls  
Flash at the edge of your sight

They only come out at night  
They only come out at night  
They only come out at night  
They only come out at night

Don't know what's at stake  
I think they're right beside me  
I gotta stay awake  
And keep them all from biting

They only come out at night  
They only come out at night  
They only come out at night  
They only come out at night

They only come out at night  
They only come out at night  
They only come out at night  
They only come out at night

They only come out at night  
They only come out at night  
They only come out at night

They only come out at night  
They only come out at night  
They only come out at night
