

## Censorship Blows

Lords of Acid

A virus sweeps across the nation  
The censorship of information  
You told me that speech was free  
Now you try to censor me  
Fuck your sick state regulation  
New world order domination  
Decisions made in secrecy  
The killing of freedom of speech

A virus sweeps across the nation  
First amendment violation  
Don't you try to silence me  
Cause my speech is fucking free  
Fight for freedom of expression  
Stop the artistic repression  
A nationwide conspiracy  
The killing of democracy
