

## Medicine Man

Lords of Acid

There's a med man in the desert  
Who controls the gates of heaven  
There's a med man in the desert

There's a med man in the desert  
Who can make me fly in heaven  
There's a med man in the desert

Inhale the love, explore the dream  
Just close your eyes,  
I'll make your darkness disappear  
Far from the world, believe in me  
As we set sail out to another galaxy

Inhale the love, explore the dream  
Just close your eyes,  
I'll make your darkness disappear  
Far from the world, believe in me  
As we set sail out to another galaxy
