

# You Belong To Me

Lords of Acid

You belong to me  
Can't you see you're part of me  
We are one, you are mine  
Baby till the end of time  
Did you lie when you said  
That you never would forget  
That our love would last forever, forever

Every single part of you is mine  
Belong to me  
Every single move you make  
Every single breath you take

Last night I went insane  
When I heard you call her name  
If you'd go away baby  
I could never stand the pain  
Every minute of the day  
I wonder if you've gone astray  
While we're meant to be together, together

Every single part of you is mine  
Belong to me  
Every single move you make  
Every single breath you take

You belong to me  
Can't you see you're part of me  
We are one, you are mine  
Forever, forever

Every single part of you is mine  
Belong to me  
Every single move you make  
Every single breath you take

Every single part of you is mine  
Belong to me  
Every single move you make  
Every single breath you take
