

## No Pain

## Lords of the Underground

Forever to the east.. no pain  
Fear no man feel no pain  
Fear no man feel no pain  
Fear no man feel no pain  
Fear no man feel no pain  
Fear no man feel no pain

Look into my eyes hear my name Mr funkyman show no shame  
Everybody walks like the man talks like the man  
You can be a man but not Mr Funkyman  
Cause a lot of people say Mr Funkyman is not human  
Call me what you want I keep your system like booming  
"I have arisen" live from the mental prison  
I am trying to figure out who these nigga's think they dissin  
You blow up and everybody wants to diss a brother  
I swear if it anit one dam thing its another  
But its cool cause I know how you feel  
"Niggas just mad cause they anit got no record deal-- Sah b" On the real  
My name is Mr Funkyman and no there anit no other  
Ask your mother

Once again I be the microphone damager  
Fuck you yore record company you're production and your manager  
You're better of getting a hysterectomy  
Than trying to step to me  
Don't even think about wetting me  
We can go steal-to-steal grill-to-grill record deal to record deal the hill  
to hill  
Back at you felling no pain  
And by no other name  
Cause I am still remain the same  
And it's a shame that suckers getting paid for fronting  
Yo Mr Funkyman let them no a little something  
Is there any crew you that can get with us  
"Cause not don't even think about it- Mr Funkyman"  
I heard your trying to bite my style  
But it anit worth your while  
Cause I got new styles like ??  
Sah b packed with dope rhymes and dope beats  
Stepping out one  
And get that ass done yeah

So as Mr Funkyman steps into the room  
Its clear like a finger pointing to the moon  
That you should never try to diss your style is corny  
Nigga I will get all up in your ass like I am horny (ouch)  
How you going jump up talking about what I stole  
Bitch you better slow your role  
Before yousell your soul  
Getting all mad when you don't know the facts  
But what you need to do is relax  
"Yeah sit that ass down man"  
To tell the truth I think you like the way I rock  
How you going to diss me when your mum is on my jock  
But you can bring your boys and I will eat them all  
This ball beat them all I get you open like menthol  
You know real titles have to be earned

That's why I am Mr Funkyman and you're just a herb  
We can rumble like Rocky and Apollo creed  
Because I never been afraid to bleed  
So what you need no pain

[Chorus to fade]
