

## Statements

Loreen

Karma, karma, come and dance with me  
Read between the lies and set me free  
Imagine the beginning of the end  
And we don't need to ever talk again

We don't need your way out  
We don't need your way out  
We don't need your way out

Words cut but I don't care how much it hurts  
Shades for the blind, can't hear your empty words  
We don't need no  
We don't need no

Statements  
Statements

Mother Mary try to keep it real  
Save your prayers for peace and let us heal  
Did our best but you say otherwise  
We're building up for war in paradise

We don't need your way out  
We don't need your way out  
We don't need your way out  
We don't need your way out

Words cut but I don't care how much it hurts  
Shades for the blind, can't hear your empty words  
We don't need no  
We don't need no
