God Knows I Love You Kid

Lorene Drive

A bad habit, a heart shut
The final act has just begun
And empty pocket, a little love
We all watch the curtain open
How I want this moment to pass
I don't want to fake it no more

Your voice is giving out
And your eyes need some rest
I love you girl, God knows I love you
But you know that I know best
You see, your face is different now
So much different that the rest
I love you girl, God knows I love you
But you know that I know best
yea you know that I know best

Daddy's got a brand new bag
And he's gonna give it all to you
But you don't want none unless I got some
Just got to get it through to you

Daddy's got a brand new bag
And he's gonna give it all to you
But you don't want none unless I got some
Just got to get it, uh, just got to get it to you

A bad habit, a heart shut
The final act has just begun
And empty pocket, a little love
We all watch the curtain open
How I want this moment to pass
I don't want to fake it no more

Daddy's got a brand new bag
And he's gonna give it all to you
But you don't want none unless I got some
Just got to get it through to you

Daddy's got a brand new bag
And he's gonna give it all to you
But you don't want none unless I got some
Just got to get it, uh, just got to get it to you

Just got to get it through you
Just got to get it
Just got to get it, yeah

When you're all alone in the world
It's so hard enough on you
Because I'm all alone and lost without you
All alone and lost without you

When you're all alone in the world
It's so hard enough on you
Because I'm all alone and lost without you
All alone

Your voice is giving out
And your eyes need some rest
I love you girl, God knows I love you
But you know that I know best
(yea you know that I know best)

Daddy's got a brand new bag
And he's gonna give it all to you
But you don't want none unless I got some
Just got to get it through to you

Daddy's got a brand new bag
And he's gonna give it all to you
But you don't want none unless I got some
Just got to get it, uh, just got to get it, yeah
Just got to get it...
