

# Out Alive

Lorene Drive

Why do you  
Keep getting lost, you run in circles  
Yet you're still on time (still on time)  
Does it make you stiff  
And think about the only friends that you forgot (you  
Forgot)

Because all those times  
They promised you  
You're gonna make it out alive  
So jump inside  
A thousand eyes  
They're looking up to you

They never told me, they never showed me  
How to make it out alive  
I never showed you, I never told you  
That you'd make it out alive  
Oh, oh

Scraping by,  
Just to fill the whole you've made  
In all your time (all your time)  
He said give me something more to this world  
So give me inspiration  
You know I'm due come on (come on)

Because all those times  
They promised you  
You're gonna make it out alive  
So jump inside  
A thousand eyes  
They're looking up to you

They never told me, they never showed me  
How to make it out alive  
I never showed you, I never told you  
That you'd make it out alive  
Keep me, keep me, keep me safe inside

Looking out from the seventh story, yeah  
Will I feel the same tomorrow morning?  
So keep me safe inside  
So keep me safe  
Oh tonight

Looking out from the seventh story  
Will I feel the same tomorrow morning?  
But tonight it's not right

They never told me, they never showed me  
How to make it out alive  
I never showed you, I never told you  
That you'd make it out alive

They never told me, they never showed me  
How to make it out alive

Looking out from the seventh story  
Will I feel the same tomorrow morning?  
But tonight it's not right

I never showed you, I never told you  
That you'd make it out alive  
Looking out from the seventh story  
Will I feel the same tomorrow morning?  
But tonight it's not right

They never told me, they never showed me  
How to make it out alive  
Looking out from the seventh story  
Will I feel the same...
