

Some Kind Of Love

Lorene Drive

Some say I'm just a singer
I say another sinner
Don't blame these bloody fingers
Cause I know I've gotten further
Than anyone I know now
Much better than I ever knew before
It's such a wonderful chemistry
It's just a wonderful thing

You better not serve me that drink
Cause you're my favorite enemy
Build me up baby, don't break me down
So go ahead and serve that drink
Cause you're the only one for me
Build me up baby, don't break me down

Some say I don't meet the standard
To avoid a great disaster
Don't blame these worn out fingers
Cause i know, oh yes I know
It's such a wonderful chemistry
It's just a wonderful thing

You better not serve me that drink
Cause you're my favorite enemy
Build me up baby, don't break me down
So go ahead and serve that drink
Cause you're the only one for me
Build me up baby, don't break me down

You dance around the obvious
Around the bush you beat too much
Don't lie to me, just be straight up
Start over(2x),

You better not serve me that drink
Cause you're my favorite enemy
Build me up baby, don't break me down
So go ahead and serve that drink
Cause you're the only one for me
Build me up baby, don't break me down

You dance around the obvious
Around the bush you beat too much
Don't lie to me, just be straight up
Start over
Start over, if you consider me a friend...
