

Crazy Out of My Mind

Loretta Lynn

I'm through the place where I don't know my name
It's a world for the lonely go insane
I've brought along the little pieces of me he left behind
Got no place to go but crazy out of my mind
I've got no place to go but crazy out of my mind over baby
He's the last thing I remember that I won't forget in time
Got no place to go but crazy out of my mind

I've watched him leave with hurt clear out of sight
And from that day on my mind just don't work right
What a little sence left in me I'll leave here in this wine
Got no place to go but crazy out of my mind
I've got no place to go...
