

Don't It Feel Good

Loretta Lynn

I'm not ashamed because our love has gone too far
As far as I'm concerned it made me love you more
Because I know our first time was our first time makin' love
Our love's the key we used to open up the door

Don't it feel good lying in each other's arms
And don't our love keep gettin' better all the time
And what we've found is something that most people never find
Don't it feel good to know I'm yours and you're all mine

Don't it feel good lying in each other's arms
And don't our love keep gettin' better all the time
And what we've found is something that most people never find
Don't it feel good to know I'm yours and you're all mine
Don't it feel good to know I'm yours and you're all mine
