

# Heart Don't Do This to Me

Loretta Lynn

He's got you all flooded and drowned by his show,  
I turned my head and watched you fall right into his arms,  
The last time you got broken now didn't we agree,  
I know you remembered all the agony

Heart don't do this to me, heart for once think of me,  
How many times have we been stepped on,  
Heart don't do this to me your ya own worst enemy  
Oh heart don't you do this to me

Heart if you're not careful you'll fall in love again,  
Once he's got you on his side he knows that I'll give in,  
Don't listen to those sweet things he whispers in your ear,  
Cause lately you'll be leaving every thing you hear,

Heart don't do this to me, heart for once think of me,  
How many times have we been stepped on,  
Heart don't do this to me your ya own worst enemy  
Oh heart don't you do this to me
