

I Know How

Loretta Lynn

Yeah I love him like he wants me to and I know how
And it's my duty to know his moods when he gets moody
Yeah I give him what he needs and that's why I'm his right now
Yes I know I love him right cause I know how yeah I know how
Yes I know how to hold him when he needs holdin'
And I know how to kiss him when he needs kissin'
I understand his every wish and his every wish is mine
Yes he knows I love to love him and I know how yeah I know how

Yes I know how to hold him...
You better believe I know how
