

# I Love You, I Love You

**Loretta Lynn**

With each day I miss you a little bit more I love you I love you  
u

I just can't forget won't try as before I love you I love you  
With memories that somehow won't die the loneliness won't let m  
e try

Oh the hours go slowly even I seem to cry I love you I love you

Oh with memories that somehow won't die  
I love you I love you
