

# I Walked Away from the Wreck

Loretta Lynn

I walked away from the wreck of our love affair  
And no one knew how I was hurt because I lied  
I walked away from the wreck but it broke my heart  
And I'm off myself and broken inside

And when I see you with her I still wanna scream  
It's like a bad bad dream that never seems to end  
I walked away from the wreck of our love affair  
But I'll never ever be the same again

I saw the danger ahead but I paid no mind  
For it seemed such harmless fun at the start  
Too fights the crowd too much wine too much playing round  
Then came the crash and my world fell apart  
And when I see you...
