

## Just a Woman

Loretta Lynn

Is it me you're talking to or just a woman  
Can I believe the tender way you hold me tight  
When I've given all I can will I ever see you again  
Is it me or just a woman you need tonight

Is it you behind that sweet talk or is it whiskey  
Are you in it for the falling or the high  
Am I the one you're looking for or am I just one more  
Is it me or just a woman you need tonight

Do you want my heart my hands my love  
Or am I just a woman's touch

Is it me you're reaching for or just a woman  
Once you've loved me with the simply say goodbye  
Or will I wake up to be yours will I wish I could be sure  
Is it me or just a woman you need tonight  
Is it me or just a woman you need tonight
