

Just a Woman

Loretta Lynn

Is it me you're talking to or just a woman
Can I believe the tender way you hold me tight
When I've given all I can will I ever see you again
Is it me or just a woman you need tonight

Is it you behind that sweet talk or is it whiskey
Are you in it for the falling or the high
Am I the one you're looking for or am I just one more
Is it me or just a woman you need tonight

Do you want my heart my hands my love
Or am I just a woman's touch

Is it me you're reaching for or just a woman
Once you've loved me with the simply say goodbye
Or will I wake up to be yours will I wish I could be sure
Is it me or just a woman you need tonight
Is it me or just a woman you need tonight
