

Love's Been Here and Gone

Loretta Lynn

Love's been here and gone
But the mem'ry keeps holding on
Now I know how love is if I can live through this
Love's been here and gone

When there's love your heart is strong
But it weakens when love goes wrong
Now I've known that power dealt the parting hour
Love's been here and gone

I've loved once but never again a closed heart just won't let l
ove in
Hopin' only to you oh what can I do love's been here and gone

I've loved once but never again...
