

Lovin' What Your Lovin' Does To Me

Loretta Lynn

My heart was at a standstill your touch shook me up
You made me see what I'd missed now I can't get enough
I fit so right in your world you set my heart on go
On the coldest day of winter our love would melt the snow

Our love is hotter than the fire that swept Chicago
Deeper than the Gulf of Mexico
Sweeter than the sugar cane down in Louisiana
Here with you is where I wanna be
I'm lovin' what your lovin' does to me

Your love struck me like a bolt out of the blue
The first thing that I knew I was givin' it all to you
Mhm you make it happen whenever I'm with you
The longest day of summer couldn't warm me like you do

Our love was stronger than the winds that hit Biloxi
Taller than the hills of Tennessee
More movin' than the earthquakes that shake up California
Here with you is where I wanna be
I'm lovin' what your lovin' does to me

Our love is hotter than the fire that swept Chicago
Deeper than the Gulf of Mexico
Sweeter than the sugar cane down in Louisiana
Here with you is where I wanna be
I'm lovin' what your lovin' does to me

Our love is hotter than the fire that swept Chicago
Deeper than the Gulf of Mexico
Sweeter than the sugar cane down in Louisiana
Here with you is where I wanna be
I'm lovin' what your lovin' does to me
