

Making Love From Memory

Loretta Lynn

How can one bed feel so lonely
With two people lyin' side by side
How can my arms feel so empty
When we're holdin' each other tight

Now we just go through the motion
Doin' all the things we've done before
But we're just making love from memory
Oh we don't feel love anymore

We're just making love from memory
Playing a part we've memorized
Yes we're just making love from mem'ry
Love without a feelin' inside

Somehow we've lost that sweet desire
That we took for granted for so long
Now we're just making love from memory
Making love when love's already gone

We're just making love from memory
Playing a part we've memorized
Yes we're just making love from mem'ry
Love without a feelin' love without a feelin'
Love without a feelin' inside
