

## Possessions

Loretta Lynn

Everybody wants a little somethin'  
That he can keep and call his very own  
But it takes more than that it takes devotion  
And that's one possession I've been workin' for

I don't like the way that my man parties  
And hear him brag about the things we've got  
I'm gettin' tired of hearin' him a boastin'  
And actin' like we're somethin' that we're not

So take me home success don't mean a thing to me  
As for love we had much more when we were poor  
And it's so sad to see how money's changed him  
He don't need me he loves possessions more

So take me home success don't mean a thing to me  
As for love we had much more when we were poor  
And it's so sad to see how money's changed him  
He don't need me he loves possessions more  
No he don't need me he loves possessions more
