

Possessions

Loretta Lynn

Everybody wants a little somethin'
That he can keep and call his very own
But it takes more than that it takes devotion
And that's one possession I've been workin' for

I don't like the way that my man parties
And hear him brag about the things we've got
I'm gettin' tired of hearin' him a boastin'
And actin' like we're somethin' that we're not

So take me home success don't mean a thing to me
As for love we had much more when we were poor
And it's so sad to see how money's changed him
He don't need me he loves possessions more

So take me home success don't mean a thing to me
As for love we had much more when we were poor
And it's so sad to see how money's changed him
He don't need me he loves possessions more
No he don't need me he loves possessions more
