

Somebody Led Me Away

Loretta Lynn

You come in with the sun in the morning
Like you've done so often before
But you won't find me asleep on the sofa
Exhausted from walkin' the floor.
So while you were leading somebody on
My heart was slippin' away
While you were leading somebody on
Somebody led me away.
And this time the note on your pillow
Will go one line more than I'm through
For the guilt down feeling this time over leavin'
It's there it's so easy to do.
'Cause while you were leading somebody on
My heart was slippin' away
While you were leading somebody on
Somebody led me away...
