

## These Ole Blues

Loretta Lynn

I'm lonesome and blue  
No one to tell my troubles to  
I got nothin' left to lose  
Since I lost you  
That old moon up in the sky  
Don't even know the reason why  
That you left me all alone  
And so blue

Them doggone blues, I've got 'em bad  
Takes all the love I've ever had  
All the sorrow that I've bled  
Don't have no one to even care  
That old moon up in the sky  
Don't even know the reason why  
That you left me all alone  
And so blue

This old heart of mine is cursed  
It just goes from bad to worse  
Lord I've cried me a river, maybe two  
Ain't borne a smile since don't know when  
Probably never will again  
Since you left me all alone  
And so blue

Them doggone blues, I've got 'em bad  
Takes all the love I've ever had  
All the sorrow that I've bled  
Don't have no one to even care  
That old moon up in the sky  
Don't even know the reason why  
That you left me all alone  
And so blue

That old moon up in the sky  
Don't even know the reason why  
That you left me all alone  
And so blue
