

Turn Me Anyway But Loose

Loretta Lynn

Today let's turn around and start all over
And forget this silly quarrel and war that we knew
I'll turn to you this time for ever
And spend the rest of my life just pleasing you

Turn me anyway but loose oh don't leave me
At the end of every war there's been a truce
Can't you see my foolish heart surrenders oh control me
Oh darling turn me anyway but loose

It seems we're always turning from each other
I'm so dizzy from turning I'm blue
If we could stop this motions of leaving
You could hear my heart cries out to you

Turn me anyway but loose oh don't leave me
At the end of every war there's been a truce
Can't you see my foolish heart surrenders oh control me
Oh darling turn me anyway but loose
