

## Woman of the World (Leave My World Alone)

Loretta Lynn

You came from the city streets to my little country town  
Your spell is on my baby and you've got me sorrow bound  
You don't really love him you're playin' around for fun  
Woman of the world leave my world alone

You're the devil's woman that's what my man don't know  
Why I wear more in swimmin' than you wear to parties where you  
go  
There's a place I know where you should go for that's where you  
belong  
Woman of the world leave my world alone

I don't know about the things the bright lights taught to you  
My country boy don't know them any better than I do  
I'll have to watch him hurtin' after you are gone  
Woman of the world leave my world alone

You're the devil's woman...
