

Would You Love Me Then

Lori McKenna

I can see clear through your thoughts some times
I know I can
When you say you need more time
And you think that I'll understand

Well you can put your finger to your nose
You can tell me just where I should go
Then you can fly
And I'll wonder why

What if I could leap tall buildings in a
In a single bound?
What if I could tell the world I loved you
Without even making a sound?

What if I was smarter than Einstein's daughter?
What if I had x-ray eyes?
What if I could run to the top of the sun
And not even look like I tried?
Would you love me then?

Things are never easy
Nothing's ever clear cut
Just when I thought you wanted more
You tell me that you've had enough

Well I know I'm not beautiful
And I'll never be tall and thin
But these things mean so much
When you feel with your eyes and not within

What if I could leap tall buildings in a
In a single bound?
What if I could walk across the country
Without even touching the ground?

What if I was sorry for your sins?
What if I was Prince Charles's next of kin?
What if I could change the world for you
I could make you love me if I wanted to

Would you love me then?
Would you love me then?
Would you love me then?

What if I could leap tall buildings in a
In a single bound?
What if I could tell the world I loved you
Without even making a sound?

What if I was smarter than Einstein's daughter?
What if I had x-ray eyes?
What if I could run to the top of the sun
And not even look like I tried?
Would you love me then?
