

## You Are Loved

Lori McKenna

I'll find you on a better day  
When wings of yours can fly away  
Sometime when my smile can say  
All a heart need say

I can find you anywhere  
In every life I'll find you there  
Just give me time to make it clear  
To steal a soul away

Well I can see the sun in wintertime  
And I know that you can not be mine  
Things left alone are never fine  
The world and God above  
Well I wish you all of happiness  
And I know someday you'll find success  
But find yourself as nothing less  
And know that you are loved

Well the moon and stars sometimes collide  
So we can see the brighter side  
And in giving what we've been denied  
Is all a seed need sow  
All a heart need know

Well I can see the sun in wintertime  
And I know that you can not be mine  
Things left alone are never fine  
The world and God above  
Well I wish you all of happiness  
And I know someday you'll find success  
But find yourself as nothing less  
And know that you are loved

All of heaven's goals  
Is all a heart need know

Well I'll find you on a better day  
When wings of yours can fly away  
Sometime when my smile can say  
All a heart need say
