

# Half Enough

Lorrie Morgan

I wish there was a big room somewhere  
And they kept all the time in there  
All the time that got away somehow  
And I wish there was a way I could get it back now

Startin' right at the day  
When you looked at me that way  
The way you smiled when you said my name  
I could see my life would never be the same

And I knew nothing I could say or do  
Would come close to thankin' you for your love  
And I could try for the rest of my life  
But that wouldn't be half enough

Through all the crazy years  
I turned around and you were here  
Sweeter than my wildest dreams  
Yeah, you showed me what true love means

And I knew nothing I could say or do  
Would come close to thankin' you for your love  
And I could try for the rest of my life  
But that wouldn't be half enough

And I knew nothing I could say or do  
Would come close to thankin' you for your love  
And I could try for the rest of my life  
But that wouldn't be half enough

And I could try for the rest of my life  
but that wouldn't be half enough  
Half enough, half enough, wouldn't be half enough
