

# Making Love For The First Time

Lorrie Morgan

As the time grows near, I feel so afraid  
So hold me dear, show me the way  
Has the fear in my mind  
'Bout making love for the first time

'Cause for the first time I feel like a woman  
And the feeling is so real  
And for the first time I know love's truly meant  
Making love for the first time

Now you're lying here almost sleep  
You reach out to touch me  
And call my name, soft and sweet  
I wanna give you so much of me

'Cause for the first time I feel like a woman  
And the feeling is so real  
And for the first time I know love's truly meant  
Making love for the first time  
Making love for the first time
