

# Angels With Dirty Faces

Los Lobos

Broken window smile  
Weeds for hair  
Strolling 'round the corner  
Like a millionaire

And the angels with dirty faces  
Go it alone

With one shoe on  
And one shoe lost  
Stands a wounded man  
Who just laughs it off

And the angels with dirty faces  
Go it alone  
And the angels with dirty faces  
Go it alone

Lost a brother last night  
To the howling wind  
Find an empty doorway  
It'll be back again

And the angels with dirty faces  
Go it alone  
And the angels with dirty faces  
Go it alone
