

# Burn It Down

Los Lobos

When we were young, taking time to believe  
Only to survive, what you gotta believe  
Whatever we took to survive, survive in this world  
In this crazy life, gotta give it a whirl  
All my bridge are burning  
Almost burning down  
All my bridge are burning  
Burning to the ground  
Burning down  
Burning down

Trying hard to believe  
That there is something more than me  
Something outside of myself  
Wants me to be free  
Said my bridge is falling lean  
That I could not return  
Gotta want to walk straight ahead  
To learn what I need to learn

All my bridge are burning  
Almost burning down  
All my bridge are burning  
Burning to the ground  
Its Burning down  
Burning down

Going where I belong  
Hope there is time for love  
Don't care what time it is  
Its just never enough  
Just making music  
keep my feet on the ground  
Could not live without it  
Help me to stick around

All my bridge are burning  
Almost burning down  
All my bridge are burning  
Burning to the ground  
Burning down  
Burning down

All my bridge are burning  
Almost burning down  
All my bridge are burning  
Burning to the ground  
Burning down  
Burning down
