

## Emily

Los Lobos

Emily, take me 'cross the water home  
Emily, look how much we have grown  
Emily, I still remember the day  
Waking up, chasing the shadows away  
It won't be long 'til I see your face  
Eyes as bright as the sun  
It won't be far down this lonesome road  
'Til I see you again

Emily, run so fast through the fields  
Make believe, all our dreams were so real  
It won't be long 'til I see you smile  
Turning my night into day  
It won't be far down this lonely way  
'Til I can hold you again

Emily we can hide, hide from them all  
Emily, they can't catch us  
They can't catch us now  
They can't catch us now  
They can't catch us now
