

Get To This

Los Lobos

Shake your shoes off and let loose your feet
Go on out and take it to the street
It don't matter, let 'em all come see
Just grab somebody, anyone you meet

They might be big
They might be small
Maybe brown or round or short or tall
Let's have us a real good time
Don't wait long
To get to this
Don't wait long
To get to this

Shake your head and let your hair fall down
It don't matter if anyone's around
Go outside and give 'em all a shout
Let 'em know what it's all about

We might be big
We might be small
We may be brown 'n round or six feet tall
Gonna have us a real good time
Don't be late
And get to this
Don't be late
And get to this
Don't be late
And get to this
Don't be late
And get to this

Shake your shoes off and let loose your feet
Go on out and take it to the street
It don't matter, let 'em all come see
Just grab somebody, anyone you meet

[illegible]

Don't wait long
And get to this
Don't you wait
Oo don't you wait
To get to this
Come on baby
Get on down to this
