

I Got to Let You Know

Los Lobos

You know your love for me
Has given me a thrill
And I just can't stand still
Pretty mama, you know I love you so
'Cause I love you and I want you, Baby
I got to let you know

You know your kiss kiss kiss
Has set me off my feet
And that just can't be beat
Pretty mama, with any other girl
'Cause I love you and I want you, Baby
I got to let you know

Every night in my dreams
I can hold you near
Even then I still feel
That loving you is real
You know my love's still strong
And I'm still holding on
Ain't nothing we can't do
Pretty darlin', you know I love you so
'Cause I love you and I want you, Baby
I got to let you know

Every night in my dreams
I can hold you near
Even then I still feel
That loving you is real
You know my love's still strong
And I'm still holding on
Ain't nothing we can't do
Pretty mama, you know I love you so
'Cause I love you and I want you, Baby
I got to let you know
'Cause I love you and I want you, Baby
I got to let you know
