

## I Walk Alone

Los Lobos

I'll walk alone if I can't walk with you  
I'll walk alone if I can't walk with you  
I don't want nobody else, nobody else will do

Life is too precious to live alone  
Life is too precious to live alone  
A house without love is not a home

I close my eyes and hold you tight  
I close my eyes and hold you tight  
It's a dream I have about every night

I'll walk alone if I can't walk with you  
I'll walk alone if I can't walk with you  
I don't want nobody else, nobody else will do
