```
I'll walk alone if I can't walk with you
I'll walk alone if I can't walk with you
I don't want nobody else, nobody else will do
Life is too precious to live alone
```

I close my eyes and hold you tight
I close my eyes and hold you tight

It's a dream I have about every night

Life is too precious to live alone A house without love is not a home

I'll walk alone if I can't walk with you
I'll walk alone if I can't walk with you
I don't want nobody else, nobody else will do
