

# Lil' King of Everything

Los Lobos

I can see it in your eyes  
And it makes it hard to say goodbye tonight  
The stars are shining in the sky  
And love is waiting for you and I

Let's stay up and forget about getting up  
Tonight is just about you and me  
There's no where else to go  
And no one will ever know  
And we'll dance this way  
Till the hands fall off the clock

Listen to your heart  
'Cause hearts never lie  
Leave your cares behind  
For someone else to find

Oh, I can see it in your eyes  
And it makes it hard to say goodbye tonight  
And the stars are shining in the sky  
And love is waiting for you and I

Let's stay up, forget about getting up  
Tonight is just about you and me  
There's nowhere else to go  
And no one will ever know  
And we'll dance this way  
Till the hands fall off the clock
