

On Main Street

Los Lobos

Better to walk down the boulevard
Feeling the sun on my face
Watching him banging . kiss
.got a real life
Got a dream life
No matter which way I go
Down on the main street
Down on the street
Is where I feel like home
Nothing better than . down the boulevard
With a little time on my side
All worries gone away to somewhere else.
Down on the main street

Going home is the only place I know
Take me there with the slow
Nothing better than . down the boulevard
Get a little dirt on my shoes
With my brothers and sister . all around

got a real life
Got a dream life
No matter which way I go
Down on the main street
Down on . street
Is where I feel like I am home
