

# Run Away With You

Los Lobos

I would've run away with you  
If I hadn't asked what I should do  
Believe me what I say is true  
I would've run, run away with you

I would've known it from the start  
If I had listened to my heart  
You'll never know but this is true  
I would've run, run away with you  
Run away with you

I was afraid at what they might say  
When I could have turned the other way  
You've got to know this love is true  
And that I would've run, run away with you  
Run away with you  
Run away with you  
Run away with you  
Run away with you  
Run away with you  
Run away with you  
Run away with you
