

The City

Los Lobos

Come on lets go out tonight
Out into the neon light
Sidewalk shining from the rain
From First and Hill to Sixth and Main

Two lovers kissing by the door
There's yelling from the second floor

Come on let's go get high
Go out into the neon night
Hit every spot along the way
From Paramount to Cudahy

A man is calling out a name
A rose is wrapped up in cellophane

Come on let's fall down tonight
Shoot out all the neon lights
There's people dancing real slow
The music plays till the rooster crows
