

Two Dogs and a Bone

Los Lobos

My mama she said live well alone
And remember what I said
even when you're grown

She said you and your brother
best learn to share
To do always what's right and what's fair

And be slow what you take
Cause you reap just what you make
And don't fight like two dogs and one bone

Said it's better to give than to receive
And to always tell the truth
and don't deceive

And make sure that you do
What your mama tells you to
And don't fight like two dogs and one bone
