

I'm falling down climbing up  
Trancemission undivine  
Rotten smell, deadbeat sound  
And rustle of dry blood

Here and now  
Dignity is nothing but grey dust  
Worthless prayers of the sheep  
This is the blasphemy!

Inhale, exhale, inside out  
Time shrinks, time distends  
Diluted consciousness selects with care  
The vilest verses which praise thy name

Throbbing Chaosphere  
Unholyunion of Mind and Will  
I'm still yearning, I'm waiting still  
Soul hot varices lead me to bliss
