

# Love Will Eat You Alive

LostAlone

Every little dream in every head that sleeps this night  
Every little thought in turn creates a chain reaction  
I seek reality because we don't know how hard it is to leave th  
is all behind  
But I'd give it all away

When you're caught in a web with no will to survive  
When you're caught in the web your love will eat you alive  
And you run and you run and you run but we're already dead

I can't believe we're the same species, not arachnid in disguis  
e  
Throw off these dusty dreams and believe I'd resurrect your sac  
rifice  
I crave reality because we don't know how hard it is to breathe  
this history  
And I would do it all again

When you're caught in a web with no will to survive  
When you're caught in the web your love will eat you alive  
And you run and you run and you run but we're already dead

And we can't escape through broken dreams that haunt you  
I'm survived by the lost and far away

When you're caught in a web with no will to survive  
When you're caught in the web your love will eat you alive  
And you run and you run and you run but we're already dead
