

# Obey the Rules You Lose

LostAlone

Don't cover up your faith  
This is what we craved  
For years we dreamt this place  
Deciphered every closed door  
Throw all possessions down  
The inanimate have no reason  
Obey the rules you lose  
This show starts here and we're away  
Wake up your mind and fight for your life  
Obey the rules you lose
