

AC Ricochet

Lostprophets

So many things that I wanted to know
How could I tell that you wanted to go
You built it up just to knock it all down and you got to me
Yeah, you got to me

And you can take, take, take every option
And fake, fake, fake your emotion
'Cause you can make mistakes with a smile on your face
Oh you got to me, yeah you got to me

Time and time again you will say goodbye, ooh
This rivers dry
So what do you say
Pull the trigger, walk away
Pull the trigger ricochet
So what do you say
Pull the trigger, walk away
Pull the trigger ricochet

You walk away leaving wreckage behind
I'm out of sight, but you're out of your mind
Yeah I could say that I made a mistake
But don't hold your breath
Don't hold your breath

'Cause you can take, take, take my devotion
And break, break, break every notion
This time I'd like to say I'll get over the hate
But don't hold your breath
Just hold your breath

Time and time again you will say goodbye,
Ooh, this rivers dry
So what do you say
Pull the trigger, walk away
Pull the trigger ricochet
So what do you say
Pull the trigger, walk away
Pull the trigger ricochet

I could say that, I could say that
I could say that I made a mistake but don't hold your breath

(I could say that, I could say that I could say that I made a mistake)

I could say that, I could say that
I could say that I made a mistake but don't hold your breath
Don't hold your breath. Just hold your breath

So what do you say
Pull the trigger, walk away
Pull the trigger ricochet
So what do you say
Pull the trigger, walk away
Pull the trigger ricochet

I could say that, I could say that I could say that I made a mistake

I could say that, I could say that I could say that I made a mistake but don't hold your breath
